GIANLUCA MANZO

Complex Contagions and the Diffusion of Innovations: Evidence from a Small-N Study

Gianluca Manzo is a permanent research fellow in sociology at the CNRS (Centre National de la Recherche Scientifique) as a member of the GEMASS (Groupe d'Etude des Méthodes de l'Analyse Sociologique de la Sorbonne), where he leads the research axis on Social Mechanisms and Actors' Rationality. Since August 2018, he is the GEMASS's deputy director. He earned a PhD in Epistemology and Methodology of Social Sciences (2006) from the University of Trento, as well as an M.Phil in Social Sciences and Philosophy of Knowledge (2002) and a PhD in Social Sciences (2006) from the University of Paris-Sorbonne. He held visiting positions and/or taught at the University of Oxford (Nuffield College), University of Oslo, Universitat Autònoma de Barcelona, University of Roma-La Sapienza, Columbia University, University of Mannheim, Instituto de Filosofía y Ciencias de la Complejidad (Santiago of Chile), University of Cologne, and European University Institute. His research concern theoretical and empirical topics at the intersection of several fields, namely: philosophy of social sciences (models and mechanisms), sociological theory (analytical sociology and theory of action), and social stratification (educational inequalities, inequality perception, status hierarchies). His current projects deal with migration dynamics and the diffusion of innovations. He is an expert of agent-based computational simulation.
