ANTHEM COMPANIONS TO SOCIOLOGY

The Sociology programme takes a fresh and challenging sociological look at the interactions between politics, society, history and culture. Titles transcend traditional disciplinary boundaries. This programme includes a variety of book series.

Anthem Companions to Sociology offer authoritative and comprehensive assessments of major figures in the development of sociology from the last two centuries. Covering the major advancements in sociological thought, these companions offer critical evaluations of key figures in the American and European sociological tradition, and will provide students and scholars with an in-depth assessment of the makers of sociology and chart their relevance to modern society.

“Harriet Zuckerman was a close partner in Robert Merton’s work and life. She has also been an important original voice in the sociology of science, one of the most astute commentators on the whole of that field, and the most incisive interpreter of Robert Merton’s seminal contributions to the field of sociology.”
